Satoko Yokohama

Story:

High schooler Ito lives in the northern prefecture of Aomori and has a great talent for playing Tsugaru shamisen (a Japanese three-stringed instrument). However, she struggles to make friends and play for an audience due to her strong dialectal accent and shy personality. With the aim of gaining confidence in herself, she takes a part-time job at a maid café, which elicits strong concerns from her father. (2021/116 min/in Japanese with English subtitles)
